Event Attendance Record for Conditional Registration

In 2016 the club passed a resolution *“requiring all members to attend a minimum of four (4) events (annually) to be eligible to maintain their vehicles on conditional registration. The committee have the right to issue exemptions”*.

Initially the club was recording & analysing attendances.

The committee has decided members should be “self-regulating” and will now be required to record their attendance on this sheet & submit it to the club at registration renewal time.
